PHILOSOPHICAL APPARATUS.

PHILOSOPHICAL APPARATUS.

The College is provided with a Philosophical Apparatus
that furnishes ample means of experimental illustration
in all the different branches of Natural Philosophy. The
sum of three thousand dollars has recently been expended,
partly in this country and partly in London and Paris, in
the purchase of new apparatus, adapted to the present
advanced state of the Physical Sciences. EXAMINATIONS.

At the close of each study, or branch of study, the members of the class are carefully examined, and, at the close of the year, in all the studies of the year, in the presence of a Committee of the Trustees; and their attainments are communicated to the Board of Trustees.

RELIGIOUS INSTRUCTION.

In addition to daily morning and evening prayer, divine worship is held twice on every Sunday, and the recitation on Monday morning is always in the Greek Testament. At the request of his parent or guardian, a student is permitted to attend any place of worship which himself or the parent or guardian may select. One member of the Faculty will attend at each of the different places of worship (Presbyterian, Episcopalian, and Methodist) in the village, and note all absentees.

Two at least of the Professors, with their families, will reside in the College buildings, and will board at a common table with the students, who are required to occupy such rooms as may be assigned them by the Faculty.

Rewark Academy.

Newark Academy.

By a late re-organisation of this department of Delaware College, the Board of Trustees have taken measures to place it upon a new and improved foundation, and to endow it with advantages possessed by few similar institutions in the country. The Academy, heretofore merged in the College, and of course subjected to all the evils which have been found to attend the smalgamation of the two departments in the same building, and under the same government, now enjoys the privilege of a separate establishment, without losing those which result from its relation to the College proper.

A large and elegant edifice, with all the necessary fixtures of a complete boarding establishment, has been erected and furnished, in which the students of the Academy board, under the immediate charge of the Principal and his Assistants; and all its exercises are conducted on a system of its own, uninterrupted by the interests or operations of the other department. The furniture of the study-rooms and dormitories has been chosen with peculiar reference to comfort and convenience for study; and no expense has been spared in providing the apparatus necessary to render the means of instruction complete; giving to Newark Academy facilities for private study and comfortable accommodation of students, fully equal to those afforded by many of our colleges.

From its intimate relation to the College, students of the Academy enjoy many advantages not generally obtained at institutions of this kind. Those who wish to pursue some particular branch which falls more properly within the College classes. Students also of proper age and discretion, by recommendation of the Principal, and permission of the Faculty, may enjoy the use of the College library without additional charge. Admission also may be had to the Lectures, and such other privileges of the College as can be profitably enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuittion in the English. Latin, and Greek, is s

the College as can be promisely enjoyed by academical students.

The charge for Boarding, Washing, Fuel, Light, &c., with tuition in the English, Latin, and Greek, is seventy dollars for the Summer Session, and seventy-five for the Winter Session. The only extras are one dollar per sesion for incidental expenses, and a fee of eight dollars for Modern Languages, and a fee of five dollars for Drawing, from those who enter these classes. The sessions and vacations of the Preparatory Department are the same as those of the College.

WILMINGTON BOARDING SCHOOL.

FOR BOYS.—This institution is situated in one of the healthfeet parts of the city of Wilmington, entirely beyond the settled portions of the town. The uniform healthfulness of the location may be interred from the fact that, since the extablishment of the School, about twenty-eight years, very few cases of serious indisposition have occurred among the pupils, and not a single death either here, or from diseases contracted while here.

The course of instruction includes, besides the ordinary English branches, Natural Philosophy, Chemistry, Physiology, History, Rhetoric, the various branches of Mathematics, and the Latin, Grock, and French Languages. Particular attention is paid to the higher Mathematics and their application to Mechanics and Engineering; the latter and Surveying are taught practically by field operations, with the use of appropriate instruments. Lectures on Natural Philosophy and Chemistry, in which all the important principles are illustrated by experiments, are regularly delivered before the students.

As the object is to make the instruction as thorough and practical as possible, no expense has been spared in providing suitable apparatus. It is believed that, in this respect, the Institution will compare havorably with any similar one in the country. A carefully selected library, of more than one thousand volumes, containing works on the various branches of Literature and Science, furnishes ample reading matter; while a Laboratory, fully supplied with apparatus and tests, contains all that is necessary for practical instruction in Chemical Manipulation.

The school year commenced on the third Second-day (Monday) of the Ninth month, (September,) and is divided into four quarters of eleven weeks each, leaving a vacation of two months, from about the middle of the Seventh month (July).

MORE HOME EVIDENCE.

THE TESTIMONY OF ONE OF OUR LAWYERS.—

Mr. JAS. L. HAMILTON.—DEAR STR: Although the number and respectability of the testimonials of which you are already in possession, as to the efficacy of your Medicine, "THE GREAT VA. REMEDY," in the diseases which it is designed to cure, are sufficient, in my opinion, to establish its reputation, and secure for it such patronage as will adequately reward you for the discovery of so inestimable a Medicine—yet the great benefit which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its use, and the salutary effects which I have derived from its semployment in the cases of several friends, to whom I had recommended it, constrain me to contribute, for such use as you may think proper to make of it, this formal acknowledgment of its sanitary virtues. My own case was Dyspepsia of long duration, and very segiravated in its character, manifested by an almost total destruction of the digestive functions, great debility, nervousness, emaciation, and impured appetite, with pain, and a burning sensation in the left side of the chest, palpitation of the heart, vertigo and congestion in the head, and many other symptoms indicative of the worst type of the disease, by the use of three or four bottles of your preparation, been entirely relieved. The cases of my friends, in which your Medicine was taken, were Dyspepsis, Chronic Headache, and Sore throat, in all of which it proved efficacious, after the trial of a vast number of other remedies without benefit. Your medicine is as pleasant to the taste as a cordial, and in my experience corrects all derangement of the stomach, restores the wasted or enfeebled energies of the digestive organs, and imparts strength and reanimation to the whole system.

Very respectfully, yours, &c.,

58 Folumes, with a complete Index to the first 47 Volumes.

Since volume 39 of this series, The English Common Law
Reports have been reprinted in full. With volume 44, we
commenced binding each English volume separately, instead of, as formerly, two English in one American volume.

Price—For the first 43 vols., \$3 50 per vol.

For the succeeding, 2 50 "

The reputation which these Reports maintain in England and in the United States is known to all the Profession. The low price at which they are offered, compared
with the rates of some of the principal American Reports,
of even inferior merit, recommends them particularly to
the attention of those purchasing Libraries.

A General Index to the first 47 Vols. of the English Common Law Reports.

lish Common Law Reports.

By Hon George Sharswood and George W. Biddle, Eagrs. 1 vol. 8vo.—35 00.

With this Key to their contents, the English Common Law Reports present to the Profession a mass of legal learning in the shape of Opinions, Data, elaborate Arguments, &c., &c., sufficient, probably, for the Elucidation and Prosecution or Defence of any case that can arise in our Courts of Law; and being thus made easily and instantly accessible, these Reports will be found so comprehensive, convenient, and cheap, as to supersede the necessity of other or more expensive scales.

The Index will be found of great value to all possessing the Reports; and of great convenience to those having access to, but not owning the series.

CAMBRIDGE, January 26, 1845.
Messrs. T. & J. W. Johnson: Mesers. T. & J. W. Johnson:
Gentlemen—In reply to your letter, I can with great
sincerity say, that I entertain a very high opinion of the
recent Exchequer Reports. In my judgment they are not
excelled by any cotemporaneous Reports, in learning,
ability, or general utility and interest. The cases decided
are discussed with great care, and expounded with uncommon force. I scarcely know of any volumes which I deem
of more importance or value for a Professional Library.
JOSEPH STORY.

CAMBRIDGE, January 25, 1846.
Gentlemen: Your letter of the 24th has been received, in which you ask my opinion as to the value of the English Exchequer Reports, from Price downwards to this time, to an American Lawyer, and as to the expediency of the purpose of the property of the purpose. time, to an American Lawyer, and as to the expediency of reprinting them in this country. Of the high value of these Reports, both on the Pleas and Equity sides of the Court, I have not the least doubt—the decisions of this Court for the last fifteen or twenty years, both at Equity and in Common Law, being entitled to equal respect with any others in England. I should think an American Lawyer's Library essentially incomplete without them. I am, gentlemen, very respectfully yours, SIMON GREENLEAF.

FURNISHING MAIL LOCKS AND KEYS.

POST OFFICE DEFARTMENT,

March 14, 1851.

It being desirable to substitute locks and keys of some other kind for those now in use for the mail service of the United States, specimen locks and keys, with proposals to furnish the same, will be received and considered at the Post Office Department until the first day of July noxt. The different locks will be submitted to a commission for examination and report. Upon this report, contracts will, as soon as practicable, be entered into for furnishing such locks and keys for four years, with the right on the part of the Postmaster General, for the time being, to extend and continue the contract in force for an additional term of four years, by giving to the contractor a written notice to that effect, not more than nine nor less than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest.

written notice to that effect, not more than nine nor least than six months before the termination of the first term of four years.

With a view of procuring the best lock at the lowest price, no kind of lock is prescribed as a standard, the Department relying for a selection on the mechanical shill and ingenuity which a fair competition, now invited, may develop. It is, however, proper to state that a lock sultiable for the mail service should possess the following qualities, vir: durability, uniformity, lightness, and strength.

For the purpose of displacing simultaneously all the mail locks and keys now in use, about thirty thousand newlocks and twenty thousand keysadapted thereto will be required to be furnished by the contractor within seven months after the contract shall have been entered into; afterwards the annual supply will depend on the durability of the locks and keys adopted, as well as the increase of the mail service; but it will probably never exceed in amount three thousand of the former and one thousand of the latter.

No lock will be considered if it be like any already in general use; nor will any one with whom the contract may be made be allowed to make, sell, or furnish, any lock or key similar to those contracted for for any other purpose or use than that of the Post Office Department.

The kind of lock adopted must be patented, and the patente will be required, on entering into contract, to make an assignment of his patent for the exclusive use and benefit of the Department, if the Postmaster General shall deem such requirement essential to the interests of the service. In case of the failure of the contractor at any time to falfit faithfully the terms and conditions of his contract, the Postmaster General shall have the right, besides a resort to the penal remedy hereinafter mentioned, to annuls asid contract, and to contract mew with any other party or parties as he may see fit, for furnishing similar locks and keys.

reception and accemmodation of the travelling community.

An extended notice of the unsurpassed conveniences of this House is deemed superfluous, as the numerous improvements which have been made cannot be properly given in an advertisement. Suffice it to say that no expense has been spared to render any apartment perfect.

The furniture was made expressly to order, regardless of cost, and certain portions of it, especially the Drawing-rooms, will be found to be of the most beautiful and tasteful inhanufacture. The Dining-rooms are capacious, and the hours for meals will be so arranged as to suit the convenience of the early and late.

Every department will be conducted in an unexceptionable manner, and the Proprietor pledges himself that the American House shall be truly the Traveller's Home_LEWIS RICE.

HUNT'S MERCHANTS' MAGAZINE AND COMMERCIAL REVIEW.

Established, July, 1889, BY PREEMAN HUNT, EDITOR AND PROPRIETOR. THE Number for December, 1850, completed the twenty-third semi-annual volume. The work has been
enlarged since its commencement in July, 1859, and each
volume now contains more than seven hundred large cotave pages. A few complete sets of the Magazine may be
obtained at the publisher's office, 142 Fulton street, New
York, neathy and substantially bound, for two dollars and
a half per volume.

The following are a few of the many commendatory letters received by the editor of the Merchants' Magazine
from distinguished statesmen:

Letter from the Hon. Henry Clay.

Asmland, 20th July, 1849.

Dear Sir: I wish to express to you the gratification I derived on receiving the July number of the Merchants' Magazine and Commercial Review, from viewing your portrait in the beginning, and from reading your address to your friends at the end of it. When we feel under obligations to those who have contributed to our information and amusement, we are naturally desirous to possess all the knowledge of them, of their appearance, of the features of their countenance, and of the character and habits of their mind, which we can acquire. You have placed your numerous readers (at least you have me, if I may not speak for them) under those obligations; and the number of your valuable work now before me, in some degree, satisfast she desire to which I have alluded.

I have become quite familiar with the Magazine and Review, and have no hesitation in expressing my humble opinion that it is eminently entitled to the public regard and support. It collects and stranges, in good order, a large amount of valuable statistical and other information, highly useful not only to the merchant, but to the statesman, to the cultivator of the earth, to the manufacturer, to the mariner, in short, to all classes of the business and reading community.

Entertaining this opinion, I am glad that it has been, and hope that it may continue to be, liberally patronized.

Offering you cordial assurances of my esteem and regard, I am truly your friend and obedient servant, Freeman Hunt, esq.

Extract of a letter from Hon. Millard Fillmore.

"I have read it (Merchants' Magazine) with a good deal of attention, and have no hesitation in saying that I think it one of the most valuable periodicals that was ever published. To the merchant it seems quite indispensable, and to the statesman and man of general information almost equally desirable. It is a grand repository of useful facts and information, which can be found nowhere so well digested and so accessible as in these numbers. I only regret that I do not own the whole work."

Washington City, April 20, 1849.

Mr. Freeman Hunt.—Sir: I owe you many thanks for the opportunities I have had to read the Merchanits' Magazine, and have found it in reality to be a magazine, and that well replenished, of all the useful matter which the title would imply, and presented with a fullness and clearness which delights while it instructs. It is, in fact, a merchanis' magazine in the large acceptation of the term—merchanis who go between nations, whose large operations bring many departments of knowledge, and a view of the state of the world, into daily requisition. But it is not the great merchant only, but the one of more modest, but, nevertheless, of most useful operations—the merchant of the interior also—who will find this magazine to abound with the information the pursuit of his business and the elevation of the mercantile character requires. Nor is its utility at all confined to merchants, but extends to the legislator and diplomatist, and to all who are charged with managing the affairs of the nation. For myself, I have found it most useful to me in my senatorial labors, and have been in the habit for many years of carefully consulting it.

Very respectfully, sir, your obedient servant,

THOMAS H. BENTON.

Letter from Hon. Wm. H. Seward. My Dear Sir: Have the goodness to place my name en your list of subscribers for the Merchants' Magazine. I regard it as an invaluable work for the use of all who would understand not merely commercial operations in this extending country, but the fiscal and commercial questions involved in the administration of the govern-

ment.

I am, with great respect, your humble servant,
Freeman Hunt, esq. WILLIAM H. SEWARD.

No exhibitor of Agricultural Implements at the above named Fair, having received one-half the amount of premiums awarded us on the different kinds of Implements and Machines, it is conclusive vidence that ours were considered the best and most valuable on exhibition.

At the great Fair of the Maryland Institute, for the promotion of the Mechanic Arts, held in Baltimore in October and November, 1850, the first premium (a heavy Silver Medal) was awarded to Ezra Whitman, ir., for the largest and best display of Agricultural Implements. Also first premium (another Silver Medal) for his Improved Wrought iron Railway Horse Power, which was made for exhibition at the World's Fair, in London, in May, 1851.

Our stock this season will be the largest ever offered in this city, and probably the largest in the world, consisting of more than 8,000 Ploughs, 250 Threshing Machines, 1000 Wheat Fans, 1000 Corn Shellers, 500 Straw Cutters, 500 Cultivators, Reaping Machines, Wheat Drills, Corn and Cob Crushers, Burr Stone Mills, Clder Mills, Hay and Cotton Presses, together with every article which a farmer or planter could wish in the prosecution of his pursuits:

COLD SPRING WATER CURE.

THIS NEW AND SPLENDID ESTABLISHMENT for

THIS NEW AND SPLENDID ESTABLISHMENT for the scientific treatment of the various diseases with which the human system is afflicted, is situated about three miles from the city of Buffalo, in a rural spot, and so accessible from all points as to be reached without inconvenience or delay.

A line of omnibuses runs from the steamboat landings in Buffalo to the springs every ten minutes.

The house and grounds are near the extensive and beautiful green-houses and nurseries of the Mesers. Hodges & Bryants; and the scenery in all directions is unsurpassed, as regards either variety or beauty; embracing points of view, from which may be taken in at a glance the broad expanse of Lake Erie, the Niagara flowing majestically towards the Falls, extensive forests, and the "Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

"Queen City of the Lakes," with its moving panorama of steamboats and ceaseless enterprise.

The water, taken immediately from the celebrated "Cold Spring," is unsurpassed as regards coldness and purity, by any in the United States. The house, recently erected at a cost of about seven thousand dollars, has been fitted up in a neat and elegant style, at considerable extre expense, and is sufficiently capacious to accammodate seventy-five patients.

Connected with the establishment, and constituting one of its attractions, are the fixtures and conveniences for innocent and healthful gymnastic exercises.

MEDICAL DEPARTMENT.

The institution is under the general supervision of S. M. Davis, M. D., Professor of the Theory and Practice of Medicine in Central Medical College, and Geo. W. Davis, M. D., formerly of Dansville, N. Y., the resident physician, and is permanently associated with the before mentioned gentleman as counsel, and associate of the medical board of control. And the friends of the establishment deem it a matter of felicitation that the services of Miss Mary M. Taylor, a lady of high medical attainments, who has attended two courses of lectures in the Central Medical College, have been secured, and that female patients can at any time awall themselves of her invaluable aid and counsel.

The steward's department is under the control of a gentleman eminently qualified for that position; and unwested pains will be taken to have every thing appertaining to the establishment arranged on a plan, and conducted in a way, to ensure the comfort, and promote the health and happiness of all who may wish to avail themselves of its benefits. Baths of all descriptions, adapted to the cure of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

of the various forms of disease, and constructed on a scale not inferior to those of any other establishment in this country.

An enlightened public sentiment has everywhere repudiated a reckless use of drugs in the treatment of disease; while intolerable sufferings and broken constitutions have imperatively demanded "Reform." A return from a wide and fatal departure from the simplicity of Nature's laws is called for, alike by a rational love of happiness and the deplorable exigencies of our condition. Hydropathy, or a scientific use of water as a restorative and curative agent, is a practical substitution of dimple and remarkably effections mode of curing the sick; for that system of drugging, depleting, and cauterizing, which, in obtaining the mastery over disease, too frequently places the patient beyond the reach of further annoyance. The success of twarious Water Cure establishments in this country, to say nothing of any other, has fully confirmed the hopes of the early discoverers and promulgators of the great traths upon which the system is founded, and renders verbal communications unnecessary. It is deemed sufficient to say, that the "Cold Spring Water Cure" will compare favorably with any of the well-conducted establishments of a similar character, and will be found equal to the best, as regards the order, convenience, and desirableness of its arrangements. The institution is now open for the reception of patients, and in full operation.

TERMS.

For board, medical advice, attendance and nursing, &c., from \$7\$ to \$14 per week, payable weekly, varying according to the room and attention required. Each patient will be required to furnish two lines sheets, two cotton comforters, one woollen bianket, and four towels; or, where it is not convenient for the patient to furnish them as above, they can be supplied at the establishment by paying fifty cents a week.

All communications for medical advice should be addressed either to \$8. M. Davis, M. D., or to George W. Davi. M. D., 239 Main street, Buffalo, N. Y.
